

## DATA SHEET

### counterweights

### GGW

for fixing the cable and setting the switching point

Article number 09921010

#### Function

Additional components that simplify assembly. The GGW counterweight is an accessory for the Champ float switch series. It facilitates the fixing of the cable and the easy adjustment of the switching point when draining or filling the tank.

#### Features

easy adjustment of switching point for Champ float switches, robust plastic coating, easy mounting

#### Mounting

mounting by feeding the cable through the opening of the counterweight

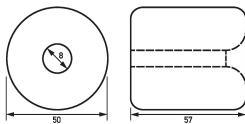

#### Applications

The counterweight is used in conjunction with the Champ float switches where the switching point needs to be set.

#### Technical Data

Technical Data	GGW
Series	GGW
Accessories design	counterweight
	<b>General data</b>
Ambient temperature	max. 50 °C
Housing type	closed
Installation type	other
Housing material	Polystyrene filled with Fe/SiO <sub>2</sub> mix
Protection class	IP67
sealable	false
Outer diameter	50 mm
Length	57 mm
Weight	0.21 kg
Inside diameter	8 mm
